**About Brouwerij West**

[Brouwerij West](#) is a unique craft brewery and venue located in the San Pedro neighborhood of Los Angeles. Brouwerij West was founded in 2010 and opened its San Pedro brewery in February 2016 in a former Port Warehouse originally built by the U.S. Navy during World War II. Brouwerij West's operation encompasses 26,000 sq. ft. of the Crafted at the Port of Los Angeles facility, including 8,000 sq. ft. devoted to visitor use for its Tasting Room and events, as well as a 17,000-sq. ft. outdoor courtyard/beer garden. Brouwerij West brews its beers using traditional ingredients and methods mixed with creative inspiration to produce its take on classic Belgian-style and farmhouse ales. Brouwerij West's new facility is covered with solar panels and generates more electricity than it uses, and its mash filter-based brewhouse uses 30% less water than traditional breweries.
